## Cyber City 2157: The Visual Novel Activation Code [Xforce Keygen]

Download ->>> <http://bit.ly/2NHAmCs>

### About This Game

You wake up looking at the cell and trying to remember a dream you have seen last night. There are only vague memories in your head - It was something connected with the cosmos and with the frightened astronaut's face. You have no time to think - you have to go to the work. There you create a perfect simulations of a human, called Molds.

So your journey through the parks, cemeteries, suburbs and dreams begins. Your adventure is in the City where the sun never sets.

It's a surreal mix of classical visual novels, odd choices, cyberpunk, mysticism and everyday life of a man lost in a rapidly changing reality.

You'll see the game, inspired by the numerous arthouse films, postmodern literature and dreams that come closer to dawn.

This game is the memory of the games that have never existed.

---

## Features:

- 150 background images, some of them are animated, made in the old-school pixel art
- Graphics, based on a simulation of the old systems and monitors (mostly on the Commodore 64 and MSX)
- Dive into the crazy world full of mysticism and cyberpunk
- The atmospheric and varied music (40 songs)
- The total duration of the game: more than 4 hours
- Just read, watch, listen to and ponder the riddles of the game world
- Steam Trading Cards

Thank you and happy reading!

b4d347fde0

**Minimum:**

**OS:** XP

**Processor:** Pentium® 4 1.5 GHz / Athlon® XP

**Memory:** 512 MB RAM

**Graphics:** DirectX® 9.0c compatible

**DirectX:** Version 9.0c

**Storage:** 1200 MB available space

**Sound Card:** DirectX® 9.0c compatible

English,Russian,Simplified Chinese

**[The voice in my head]**

Back Save Q. Save Q. Load Skip Q. Skip Auto Settings

Come on, but don't think that I'll forgive you so easily.

**[The voice of news]**

Back Save Q, Save Q, Load Skip Q, Skip Auto Settings

Freeze yourself in this endlessly and rapidly changing reality. Book Mold of yourself and members of your families to never lose each other. And even make each other a little better.

**[The voice in my head]**

Back Save Q. Save Q. Load Skip Q. Skip Auto Settings

Sun never sets. It just changes the color from one to another and attaching the entire life of the city to these colors.

---

cyber city 2157 the visual novel

I actually liked how visually creative this was, but the story was unbelievably terrible and boring and the written material is frankly unreadable.. Game ended too quickly. I sat and spoke with the statue of Lady Alanis for the entire duration and then it just ended with us looking at the moon with a very vague story. I thought I would be able to proceed after our discussion but no, this was not the case. The verbiage is clearly written by a foreigner as a lot the writing required decyphering.. Low-budget visual novel. Plot doesn't make sense.. A strange game which full of mosaic and schizophrenia; but I can not stop playing it!. I would hope it reads better in russian, spanish or chinese. If I was reading a book that started like this I would throw through the moon door.. Game ended too quickly. I sat and spoke with the statue of Lady Alanis for the entire duration and then it just ended with us looking at the moon with a very vague story. I thought I would be able to proceed after our discussion but no, this was not the case. The verbiage is clearly written by a foreigner as a lot the writing required decyphering.. I bought this for the artstyle, but by-god I cannot understand what is happening.

That's from both the terrible english, and how I assume it's supposed to seem dream-like

I'm sure if I knew more russian than\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665, I'd enjoy myself, but you should not buy this until they fix the translation.

. I really wanted to like it, but it just didn' work out.

Of all the visual novels I've read, this one has to be the worst :/. Great novel and long to!

very atmospheric and interesting  
was immediately pulled into the gameplay  
the save features are great  
def worth the buy. Weird game. A renpy visual novel with not-the-best translation from Russian. The story is about a guy who lives in a domed futuristic city and makes holographic AI reconstructions of people as a day job. The city appears to be manipulated around him in his personal life, so it's hard to tell what's reality and what's not. The stories are varied but sometimes hard to follow due to the poor sentence structure. I don't see any deeper literary meaning, so I guess it's a slice-of-life exploration into insanity or the nature of personal reality? Each playthru is <30 minutes. There seem to be maybe 8~12 endings. Good idea with not-so-good execution. Still, it has a degree of charm to me. Hopefully this review helps you decide if you'd like to try it. In future I would like the author to write more and to improve the English translation.. deffinately a mind♥♥♥♥. the visual style looks like a cross between early C64 and VGA graphics, with changing color schemes. the story really follows the logic of a dream, so that your choices really change the dynamics of the story and sometimes the world around you. looking for adventure? escape? safty in the usual or danger in a world beyond? just be carefull what you wish for. and just like a dream, if you go too deep, it just might end before you really want it too. granted a few of the endings are♥♥♥♥♥♥ but its all a very good read. please HAVE PATIANCE. deffinately a mind\u2665\u2665\u2665\u2665. the visual style looks like a cross between early C64 and VGA graphics, with changing color schemes. the story really follows the logic of a dream, so that your choices really change the dynamics of the story and sometimes the world around you. looking for adventure? escape? safty in the usual or danger in a world beyond? just be carefull what you wish for. and just like a dream, if you go too deep, it just might end before you really want it too. granted a few of the endings are\u2665\u2665\u2665\u2665\u2665 but its all a very good read. please HAVE PATIANCE. very atmospheric and interesting  
was immediately pulled into the gameplay  
the save features are great  
def worth the buy. Story was a little inconsistent, but is still fine, for me. Mainly, I'm not recommending it because of a slew of translation issues and I personally don't like the images that come with it.. Some really interesting and inquisitive writing buried beneath a whole host of translation issues.

Recommended, though be prepared for some sentences that are really difficult to parse, and a lot of re-reading until things make sense.
